Re: Sole Service Provider of the Symposium of Contemporary Conservation Practice 2018

The Grassland Society of Southern Africa (GSSA) is a professional organisation that is involved and concerned with the science and practice of rangeland and pasture management. This broad field involves primarily the use and conservation of natural resources. The vision of GSSA is that of advancing rangeland ecology and pasture management in Africa.

The Society has been the organiser of the Symposium of Contemporary Conservation Practice since 2013 to date, and as such is the sole service provider of the Symposium. The GSSA is a registered non profit and public benefit organisation, and has had a turnover of less than R 5 million for all financial years to date.

Kind regards
