

ISB / ASB 2019

Calgary, Canada

July 31 - August 4

Exhibitor Prospectus

Invitation

It is our pleasure to invite you to partner with the XXVII Congress of the International Society of Biomechanics 2019 (ISB 2019), which is held in conjunction with the 43rd annual meeting of the American Society of Biomechanics (ASB).

The ISB/ASB 2019 committee is confident that as an exhibitor, you will be able to leverage the exposure to a large number of attendees, as we incorporate breaks into the scientific program, and schedule food and poster sessions in close proximity to the exhibitor space. Our opportunities span from single booth displays, to multi-booth assemblies. Further, we recognize that many of our exhibitors are scientists themselves, and thus, congress registration for our exhibitors will be included.

We also want to recognize and thank exhibitors from our previous congresses who are intending to return, and welcome new organizations to best promote your products and services.

Congress Details

Please visit our website (<https://www.isb2019.com/>) for additional details regarding the schedule, organizing committee, accommodation and other details. Further information regarding the conference center can be found at (<http://www.calgary-convention.com/>) under the exhibiting tab.

Our Exhibitor Mission

It is our objective to provide simple, yet varied exhibition opportunities, thus addressing the varied requirements of our partners. We plan to provide a pre-determined set-up kit for all exhibitors, with the ability to upgrade to larger more elaborate displays if required. Please note that all exhibitors will share one large area in the primary conference hall, and ***priority of placement will be assigned in accordance of receipt of deposits with a ranking system of preferred locations.***

We want to thank you for providing us with the opportunity to host your organization, and look forward to exceeding your expectations.
